Norway in the Forties. No.
Of Samuel Lord, an Immigrant of
NO. 102.

The town of Lebanon is in York
County, Maine, about twelve miles north
of Portland, so well known to travel-
ers by railroad.

Revolutionary War. In the year 1780 (quite soon after
the town was settled) the name of Lord
town a farmer by the name of Lord
descendants here has not come down
to the present time. Henry D. Lord
his first child was born, and, in
1782, he married Mary D. Lord.

Samuel married Mary Frost, of
who was born Oct. 20, 1788. Her
father was John Frost, a farmer. He
was a brother to David Frost, who
was a brother of the four brothers,
William, David, Robert, and John
on Frost Hill early.

Samuel Lord moved to Norway with
his wife and children. He had a
daughter Mary and her husband, S.
Lord, and lived with them until
1810, when he moved to a farm
buried in the old church-yard on top
of Frost Hill. He was a Captain
in Revolutionary War.

Samuel Lord moved from Lebanon
Gray, and from Gray came to Norway
him. Gray was three years and nine
one year, died in the year 1810, and
known as "Gatherer" did not come
to Norway. He was a farmer, and
the already famous throughout the
country. He was a native of the
northern country when visiting Port
to exchange their "country produce
for the goods of the north."

There can be no doubt but that
the four Frost boys on Frost Hill
a short time ago, and that the
wife, was what brought him in this
land and caused him to settle where
he did.

Arriving on Frost Hill among his
children, he was met by his son
M. Gammon 108 acres of land or
east side of the road that passes up
the hill, and the road is now
five rods above Asa's Custom's
building well up to the top of the
hill. The family is now on the
5-1/2. David Frost homestead. He is
a farmer, and has a good house, and
traded cattle. It stood on the south
side of the land near the town in the
of the very highest point in the
farm.

In 1827, fifteen years after coming
to Norway, the family moved to a
not far from the centre of the west
side of his farm where he borders on
the sea. The name of this road is
Flood. After moving his family into
and his family was moved down and
the family moved to a farm on the
there to-day with its large lawn in
front.

When the family moved down the
descend into the new house our
children living on the road, and the
youngster of only about one year's
dence on the Hill; but it seems that
at that early age he appreciated the
view.

VALUED ENDORSEMENT.

SCHAEFFER, N. Y.—It is ignored
rather than anything else that makes
misable, but ignorance of the value
of the goods is the worst enemy a
shop has. Does not exist in Schaeffertown
a blood medicine and nerve tonic that
is the best of its kind. It is the best
for its popularity comes from the
fact that it is the best of its kind.
Slipper derived from its use. Mr.
perley has suffered for years past, with
Sciencing King's cure, and he has
attacks, and at intervals with vio-
lence in the head and feet. Up
to the time of his cure, he was
that time his wife who had learned of
good Dr. Kennedy's Favorite Remedy
for Sciencing King's cure, and he
him use it. In writing about his
cure, he says:

For several years I was subject to
tacks of kidney trouble and gravel, with
the result of my cure, and in every
case, but since I began the use of
David Kennedy's Favorite Remedy I
have been cured of all my troubles, and
health is greatly improved. I know of
great many people about here who in
Sciencing King's cure, and in every
stance benefit has followed. One of
the officers of the Albany, N. Y., Regi-
ment, who is now in the army, has
Kennedy's "I know of its great medi-
cal value, and I have seen it cure many
diseases for which it is prepared."

The great value of Dr. David Kennedy's
Favorite Remedy is the fact that it
dissolves the excess of uric acid in the
blood. Such ailments as rheumatism,
gout, sciatica, neuralgia, and all the
peculiar to women all come from the
same cause. Everlasting relief can
be obtained by using the Favorite Remedy
cases of scurvy, diabetes and Bright's
disease. It has cured where other treat-
ments have failed.

"Twenty-three portraits of Bismarck, covering a period of sixty years, from his student days down to the present time, are the most striking feature of McClure's Magazine for May. All of the portraits being very interesting, and a number of them really as remarkable in its way is an illustrated paper by E. J. Edwards, reciting the dramatic career of the great statesman, from his humblest origin first began to grow into prominence, through his office and when he became a member of the House of Representatives, his life and his death." This image shows a vertical strip of a document page that is severely damaged. A prominent, dark, and heavily textured band runs vertically down the center, likely representing a stain or a piece of tape. The surrounding areas are light-colored but show significant signs of aging, including speckling and discoloration. The overall appearance is that of an old, weathered, and possibly water-damaged piece of paper.
